DD/I

NSC

The NSC copy of the NSC Policies Books will not be available to CIA at time of an emergency. Therefore, the DD/I is depositing a copy, including additions and revisions.

There is a further possibility of some duplication in the depositing of Agreements and Financial Arrangements of a few CIA offices with outside government agencies and private business establishments. However, until the Area Records Officer for the Office of the Comptroller provides this office with a deposit schedule, it will be difficult to determine: (1) is the individual office deposit limited to duplicating the Comptroller deposit? or (2) does the individual office deposit contain additional background information not contained in the Comptroller deposit?

Miss [REDACTED] is presently working with the various divisions in the Office of the Comptroller toward the establishment of a vital materials deposit schedule.
